

Lingolin

Instant
Translations

**A Chrome Extension
to turn every website into a lesson**

5.5 Billion

people using the Internet

1.5 Billion

people learning a new language

750 Million

people with international coworkers

Lingolin helps you translating text,
Remembering vocabulary,
Use your voice to transcribe and translate,
And playback the translation speech audio

a Chrome Extension

For Language Learning & Instant Translations

How it Works:

Select a text, and press “T”

→ get the translation.

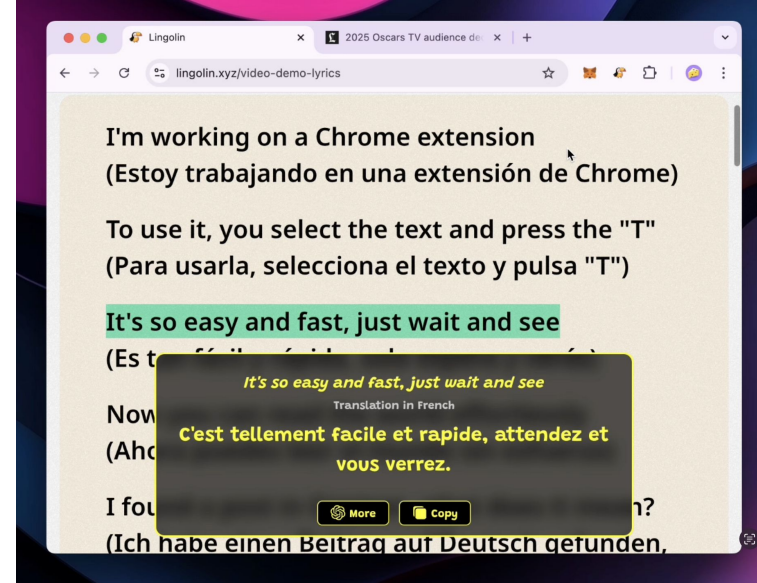

Press “Shift+M”

→ Enables mic + translates it.

Listen to each translation spoken.

Buy credits with NFTs (in USDC) + access pro features

Supports Stripe for generally easier onboarding
